

Abortion Enables...

Loving women means providing options that uphold women's lives.
Abortion hurts women physically, emotionally, and spiritually.

Racism

Abortion facilities have always targeted minorities. Black women have the highest abortion rate at **429 abortions per 1000 live births**, while white women have **106 abortions per 1000 live births**.

Ableism

Researchers estimate that, in the United States, **65-90% of children diagnosed with Down syndrome are aborted**.

Human Trafficking

According to a study conducted by the Beazley Institute on **human-trafficking survivors**, a total of **66 participants in the study accounted for 114 abortions**.

Fear

Studies show that **73.8% of women having abortions felt pressure** to have one, **58.3% aborted their child to make others happy**, and **30% feared** that they would lose their partner if they did not have an abortion.

Sexism

Abortion and other reproductive technologies give parents the ability to **choose the sex of their child**. This act of rebellion against the Creator devalues one sex and denies God's providence, as He creates new life.

Abandonment

A study found that **48% of women who have had an abortion chose to do so because they lacked support from the father**.
